Common warts can be found anywhere on the body, but are most common on the hands, fingers, elbows, forearms, knees, face and the skin around the nails. They can be as small as a pinhead or as large as a small bean. Genital warts are soft, moist growths found in and around the vaginal and anus area. Removing warts does not have to be painful nor expensive.

Herbal-Medi-Care Wart Away Stick is an alternative wart treatment that is 100% natural containing a blend of essential oils and herbs of clove, cedar wood, ginger, thyme, tea tree, green tea and sage which are known for their antiseptic properties.
